

**Welcome to the investment pitch deck
for the future self service website**

Version 724

Like

trademe

for big quotes

Save Money & Time

**with the worlds free website that automates
detailed quotes for any big job to find value &
protect from poor work, service & late payment**

As can be seen from our current website Ganquote is starting off as a full service agency that gets detailed quotes for buyers through its Ganquote software

**But our preference is to build our
highly researched self service
website as soon as we have the funds**

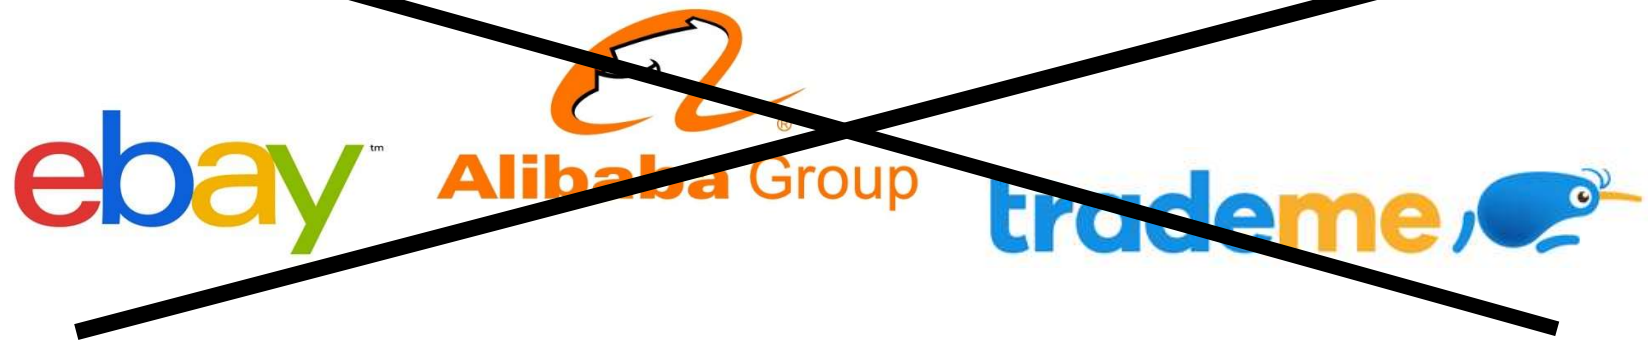

Below is the pitch explaining the opportunity for a true master website investor who has the time cash and ability to analyse the pitch and understand this huge gap in the web

**Ganquote will be the worlds first ebay,
Alibaba and trademe for big quotes**

**ebay Alibaba and trademe
hereafter called the big 3, are
websites that collect details to
protect us for premade products**

**But they can't protect us
for custom made jobs**

For example you can't get a website designed or built through the big 3

**You can't get your event
managed through the big 3**

**You can't get your irrigation
designed or laid through them**

**You can't get your house designed
repaired or built through them**

Quotation prepared by: _____

This is a quotation on the company's name, subject to the conditions noted below: (Describe any conditions pertaining to the prices and any additional terms of the agreement. You must agree to include contingencies that will affect the quotation.)

To accept this quotation, sign here and return: _____

YOUR LOGO HERE

[Your company slogan]

Thank you for your business!

**To be precise
they don't
manage a
custom quote
and binding
contract**

**Now there are quoting
websites on the internet
but they have a totally different
mission to Gan and the big 3**

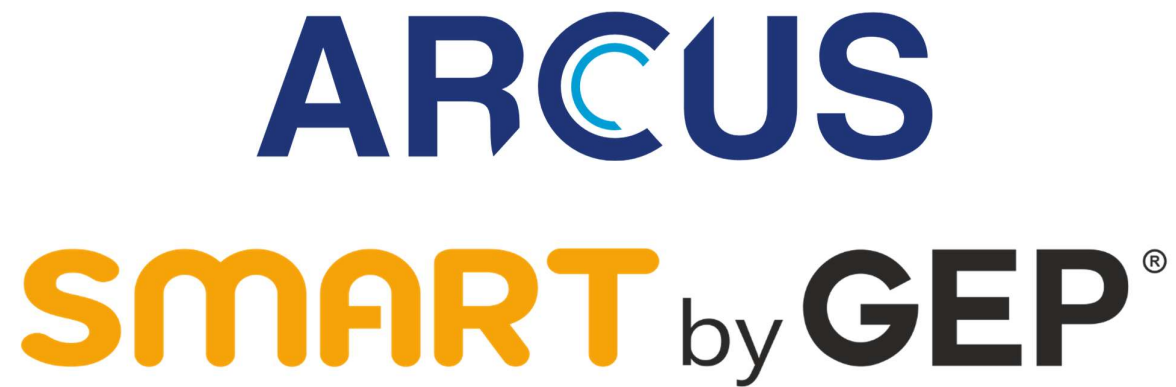

PandaDoc

**Their mission is to help the
quoter win more work with a
low detail quote**

**Gans mission is the same as the big 3,
which is to protect both sides, creating
a safer global trading environment.**

And there are tender websites but they are built for large buyers & the quoting system is far more widely used.

So how will the website work ?

Ganquote will be a website that buyers ask for their big quotes to be delivered through as Gan uncovers the best value supplier and protects both sides in 3 powerful steps.

The first step

**is asking the quoter intelligent
tick box questions about their
work & service.**

And about their guarantees

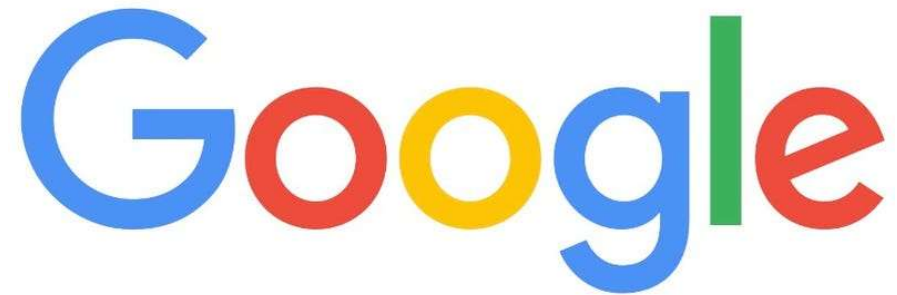

And Gan sets the terms

**So you get a detailed quote
that protects both sides**

**Now the big 3
also helps the buyers & suppliers find
each other, but for custom made jobs
theres already a great website for this.**

Its called Google

**and you can't better their service
so Gan isn't a finding website**

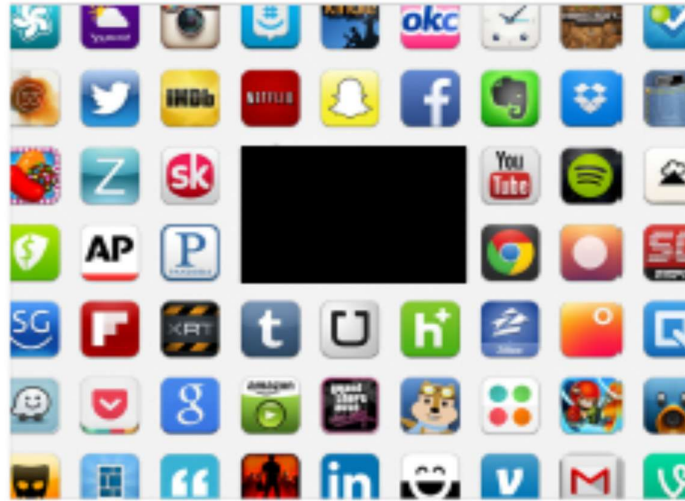

The good news is

that as Gan isn't a finding website, it doesn't require any members to immediately begin providing its service of finding the best value and protection.

Validation

30% NO 70% YES

Experience has taught us that 30% of businesses will decline to supply their quote through Gan and these are businesses you don't want. But 70% will be happy to use Gan as they are confident their work, service and guarantees are excellent & they give better value.

Believe it or don't believe it

But this is a multi billion dollar gap in the web. Probably the biggest single gap left. Why is it such a valuable unicorn gap ?

= \$1000 fee

Because even though we are only charging tiny success fees to the quoter, as the big 3 found, a tiny fee on a big item like a house, or irrigation, is a huge fee in the world of websites.

IP

Gans IP is hundreds of files of highly researched, world class plans, for a build ready, globally original, website that will give a huge return to shareholders. We encourage investors to view the mock up website.

And it's the worlds simplest website

**as it uses intuitive book page design, which is long sentence
buttons and single column scroll down & explain as you go.**

We have shares available.

in minimum blocks of \$10K NZ dollars per 1% with no money down until all the shares are sold.

We are raising 300K NZ in this first round.

If anyone introduces us to someone who buys a block, they will get free shares.

Email ganquote@xtra.co.nz to request a prospectus for details on the business plans and share offer.
